AE, Agricultural Exclusive

WATER

Block 3 has a 100 hp, 850 gpm well and a 20 hp, 175 gpm well. Both wells can be used for flood or through a spin clean filter for drip. The Chowchilla Water District outtake is located in the NE corner of this block. The C.W.D. pump supplies 1,500 gpm for flood.

Block 5 has a 30 hp, 450 gpm well and a 15 hp 290 gpm well connected to 3 sand filters for drip irrigation. There is a Chowchilla Water District outtake located 1/4 mile south of this block. There is an easement to the outtake for a pipeline that has not been installed yet.

SOILS

See Soils Map included.

BUILDINGS

None.

PRICE/TERMS

\$2,042,920 cash at the close of escrow.

Water Disclosure: The Sustainable Groundwater Management Act (SGMA) was passed in 2014, requiring groundwater basins to be sustainable by 2040. SGMA requires a Groundwater Sustainability Plan (GSP) by 2020. SGMA may limit the amount of well water that may be pumped from underground aquifers. Buyers and tenants to a real estate transaction should consult with their own water attorney; hydrologist; geologist; civil engineer; or other

environmental professional. Additional information is available at: California Department of Water Resources Sustainable Groundwater Management Act Portal - <https://sgma.water.ca.gov/portal/> Telephone Number: (916) 653-5791

Policy on cooperation: All real estate licensees are invited to offer this property to prospective buyers. Do not offer to other agents without prior approval.
